

## Classification des revues

Par groupe et par ordre alphabétique

2006/2007

## DÉFINITION DES GROUPES

### Reuves

---

#### ■ Groupe 0 (exceptionnel)

Un petit nombre de revues scientifiques *unanimentement* reconnues au plan international comme étant les meilleures de la discipline.

Le comité de lecture de ces revues est composé des meilleurs chercheurs actuels du domaine.

#### ■ Groupe 1

Reuves scientifiques d'excellent niveau, reconnues et diffusées au plan international, sans toutefois faire partie des toutes premières revues de la discipline. Les comités de lecture de ces revues sont composés des membres influents et reconnus dans la discipline.

#### ■ Groupe 2

Reuves scientifiques avec comité de lecture dont la qualité des articles est généralement inférieure à celle des revues du groupe 1.

Il s'agit des revues à circulation nationale ou des revues internationales de moindre notoriété.

#### ■ Groupe 3

Reuves professionnelles contenant des articles destinés aux experts du domaine ou revues scientifiques mais à aire de diffusion très étroite. Leurs comités de rédaction incluent des personnalités académiques.
